How does it work?
Patrons search or browse your Digital Library Reserve site or your online catalog for titles. Or, they can click directly to your digital media site’s URL. Patrons install free reader software on their computers or devices. eBooks are available in familiar Adobe® PDF and Mobipocket® document formats, and audio and video is available in the Windows® Media format.

Checkout is as easy as entering a library card. Patrons download titles to a computer or laptop, then transfer to Pocket PC, PDA, Smartphone, CD player, or MP3 player, depending on use permissions. Many audio titles can be burned to CD and played in the car. At the end of the loan period, titles automatically expire.
